Fail Notes

Chapter 67.3(3) Veterinary Care e.

e. Each commercial breeder shall enter into a written agreement with a veterinarian licensed in this state to provide veterinary care for the animals maintained in the commercial breeder's facility. The agreement shall include a requirement that the veterinarian visit the facility at least once every 12 months for the purpose of viewing all the animals in the facility, making a general determination concerning the health/disease status of the animals, and reviewing the commercial breeder's program for disease prevention and control. If during the course of the visit, the veterinarian identifies an animal that requires a more detailed individual examination to determine the specific condition of the animal or to determine an appropriate course of treatment, then such examination shall be undertaken.
