Notes Chapter 67.3(1)(f) Housing Facilities

f. Ceilings, walls and floors shall be constructed so as to lend themselves to efficient cleaning and sanitizing. Such surfaces shall be kept in good repair and maintained so that they are substantially impervious to moisture. Floors and walls to a height of four feet shall have finished surfaces. No sharp or jagged edges may be present that may injure an animal. Animal contact surfaces must be free of excessive rust that prevents required cleaning and sanitizing or that affects the structural strength of the surface or that may be detrimental to the health of the animal.

[Floors in small dog boarding area and dog overflow have not been repaired/resealed and are still showing cracks/chips/areas of wear.]
